

## **INSTRUMENT FOR PAPERS AND SCIENTIFIC COMMUNICATIONS EVALUATION**

The paper evaluation form is an instrument used by the editors of the Caderno Magazine of Agricultural Sciences to improve the judgement system of the submitted manuscripts. This evaluation will be sent to the author (s), for corrections and suggestion publications. Simpler comments can be made in the text itself, and more detailed comments should be made on the evaluation form.

**Title:** Presents clarity, objectivity and consistency with study? \*

**Summary and Abstract:** Presents the study objectives, methodology, results and main conclusions?

**Keywords:** Are they appropriate and not part of the title?

**Introduction and bibliographic review:** Includes justification, updated theoretical reference and objectives? \*

**Materials and Method:** Does it present itself in a clear and objective manner and adequate to the proposal? \*

**Results and Discussion:** Does the article present the results clearly and objectively? Are the illustrations necessary and in adequate numbers? Is there a comparative and critical discussion of the results? \*

**Conclusion:** Does it meet the purpose of the study? Is it clear and objective? \*

**References:** Are current and suitable to the study? \*

**Do you recommend the publication in the submitted form (scientific article, Communication) or do you suggest a change publication genre?**
