

Bibliografia básica para formação do GRI

As referências aqui apresentadas incluem levantamentos realizados, no período de 1987-90, uma revisão de literatura em abstracts especializados, em catálogos de editoras, bem como em catálogos de bibliotecas e livrarias no Brasil e no exterior. Assim, esse trabalho constitui um esforço comum de Alaor Messias Marques Junior *, Anna da Soledade Vieira **, Bernadete Santos Campello **, Eglée Josefina Belisario Guevara ***, Nádina Aparecida Moreno *** e Virgínia Bentes Pinto *** que em momentos diferentes contribuíram para a elaboração da presente bibliografia, a qual em grande parte vem sendo adquirida pela Biblioteca da Escola de Biblioteconomia da UFMG.

Na seleção dos itens, optamos por explicitar a multidisciplinariedade da gerência de informação e, desta forma, o próprio título — «Bibliografia Básica para Formação do GRI», e não «sobre GRI» — aponta para essa amplitude desejada. Fosse outro o critério, e o presente trabalho seria bastante resumido, incluindo apenas aquelas obras que abordassem, da perspectiva estratégica, as áreas de interseção entre ciência da informação, informática e administração.

As referências que se seguem, foram aqui reunidas em três grandes grupos, a saber:

-
- * Bibliotecário, Secretário do CPG/EB/UFMG.
 - ** Professoras da EB/UFMG.
 - *** Alunas do Curso de Mestrado da EB/UFMG.

artigos de periódicos: na perspectiva interdisciplinar, essa seção inclui textos introdutórios à GRI, escritos por especialistas dessa nova área. Propositadamente foram escolhidos textos que refletem perspectivas várias e até divergentes sobre o tema;

livros: literatura brasileira e estrangeira (predominantemente inglesa e americana) sobre GRI e temas associados;

periódicos: títulos de periódicos especializados em GRI ou que freqüentemente publicam artigos sobre o assunto.
