Acknowledgments to Referees

We would like to thank all those who have participated as anonymous referees in the editorial process of *Transversal: International Journal for the Historiography of Science* in 2016 and 2017. Without the expertise of the referees it would be impossible to reach the editorial quality we pursue. This important knowledge of the referees helped the editors accept the papers – or eventually reject some of them – as well as helped the authors improve their works. Thus, referees accompanied and certificated all the editing process. We owe a huge debt of gratitude to them. The following is a list of scholars who have read in average two papers in the last 18 months.
